

A photograph of an Avaya IP Phone J179 on a wooden desk in an office setting. The phone is silver and black, featuring a color display screen at the top showing a red interface. Below the screen is a navigation pad and a numeric keypad. The phone is on a stand. In the background, there is a blurred office environment with a computer monitor and a small potted plant.

Avaya IP Phone J179

Give Your Power Users Enhanced Communications Capabilities

The competitively priced, high-performing Avaya J179 IP Phone features a color display, 4 softkeys, high definition audio quality, integrated Gigabit Ethernet interface, headset support, up to three 24-button Expansion Modules, and optional Wi-Fi® / Bluetooth®. The J179 IP Phone leverages your enterprise IP network to deliver sophisticated voice communications from headquarters, remote locations, or home offices. Tightly integrated with the Avaya Aura® and IP Office™ platforms, the J179 IP Phone optimizes communications through a flexible architecture that leverages existing investments and accommodates changing business needs.

Key Features and Benefits

- Supports optional J100 Wireless Module for Wi-Fi connectivity and / or Bluetooth® headsets.
- Delivers high definition audio that can increase productivity by reducing fatigue and provides easier-to-understand multi-party calls through the wideband audio codec in the handset and headset.
- Simplifies call control on the display using softkeys for everyday functions such as transfer, conference and forwarding; also makes it easy to perform everyday tasks such as quick access to the corporate directory.
- Provides visual cues that can speed task management through 8 dual-color Red / Green LED buttons.

The Avaya IP Phone J179 is an 8-line phone ideally suited for power users who consider the phone to be one of many useful communication tools and who rely on common functions like directory and speed dial to enhance productivity and collaboration.

- Improves flexibility through support of a secondary Gigabit Ethernet port for a PC.
- Enables high-speed call handling through support of up to three Avaya J100 Expansion Modules.
- The handset has built in volume boost for hearing impaired to avoid having to purchase a separate amplified headset.
- Accommodates advanced unified communications solutions through Session Initiation Protocol (SIP).
- Supports reduced energy consumption and lower costs through Powerover-Ethernet Class 1 design with “sleep mode”.
